

## Scenario

You are a college student and you have been walking to all your classes. 2 of your classes are farther away from your dorm than the rest. You're tired of making the 25 minute walking commit to class, so you start to look into bus transportation.

Task 1: Find and select the location that you would like to go to.

Task 2: Find a bus you would like to ride on.

Task 3: See if you can figure out the capacity of the bus, because you don't want to be on a crowded bus during covid season. Now call the bus come.

## Notes

Thing to Change:

- The color of the homepage is bland
- Have more bus stops
- Differentiate the buses with and without air conditioning

Things to Keep:

- The layout is easy to comprehend
- Position of user and bus is helpful
- Capacity of people on the bus
